

What They're Saying

Jennifer Granholm, Secretary of Energy

"In this moment of crisis, we need more supply ... right now, we need oil and gas production to rise to meet current demand,

President Joe Biden

"You can increase oil and gas production now while still moving full speed ahead to accelerate our transition to clean energy. That way — that way, we can lower energy costs for American families, enhance our national security at a very difficult moment.

Asm. Vince Fong & Asm. Carlos Villapudua, CalMatters

Because of its demanding standards, California has the ability and know-how to extract petroleum more responsibly and safely than any other oil-producing region in the world.

Elon Musk, CEO, Tesla

"Hate to say it, but we need to increase oil & gas output immediately. Extraordinary times demand extraordinary measures,"

U.S. Senator Joe Manchin, Chairman of the Senate Energy and Natural Resources Committee

"It is unconscionable for America, with our abundant natural resources that can be produced cleaner than anywhere else in the world, to continue relying or consider increasing reliance on authoritarian regimes to do for us what we can do for ourselves."
